

SHEEP

ZinMet® is a combined source of Organic trace minerals Zinc and Chromium. The unique complexation of minerals to a specific organic escort will bypass rumen degradation at a rate of approximately 80% making ZinMet® more readily available for absorption through the gastrointestinal tract.

ZinMet® contains these two vital trace minerals bound to methionine available in a powdered form, that can be added to stockfeeds or supplements according to the required feeding rate.

It is advisable to feed twice the recommended level of ZinMet® in periods of high risk or when stress conditions prevail (i.e. prolonged wet weather, newly exposed gravel laneways/pens, footrot outbreaks, transport lairage containment, waterlogged soils, health challenges or high prevalence of lameness).

Specifications	ZinMet® 100	ZinMet® 50
Description	A lavender coloured aqueous solution. pH 4.2, SG 1.4	Free flowing dry form
Composition	10.00% Zinc 20.00% Methionine 830ppm Chromium	5.00% Zinc 10.00% Methionine 415ppm Chromium
Packaging	1,000 modules	20kg bags
Usage rate	1.8 grams/head/day	3.6 grams/head/day
Stress condition rate	3.6 grams/ head/day	7.2 grams/head/day

Sheep flock performance is enhanced with ZinMet® giving the following positive responses:

Production

1. Improved feed conversion efficiency
2. Improved average daily gain
3. Stimulated immune system
4. Better tolerance to, and recovery from stress and morbidity
5. Stimulates keratin production, the main structural element in hair/fibre and hooves.
6. Improved skin quality
7. Speeds up wound healing by increasing the generation of epithelial tissue such as the skin, hoof, gut and lung lining wall
8. Reduced foot problems

Breeding

1. Increased milk production
2. Reduced incidence of mastitis in lactation ewes
3. Improved cellular sensitivity to insulin which plays a critical role in a ewe's many physiological functions
4. Vital for the maintenance of the health and integrity of epithelial tissue, such as the mammary tissue

Compatible with most animal feeds and all processed feed ingredients
